SPECIAL ORDERS OF BUSINESS

ITEM-32: Request for Reconsideration - Master Plan Development Permit/Coastal Development Permit No. 99-1076 - Naval Training Center Project.

(See memo from Councilmember Byron Wear dated 10/4/2001. Peninsula Community Area. District-2.)

TODAY'S ACTION IS:

Consideration of motions to:

- (1) Waive the Permanent Rules of Council, Section 22.0101 of the San Diego Municipal Code. **Waiver of the Permanent Rules of Council requires a vote of two-thirds of the Councilmembers (6 votes required).**
- (2) Reconsider the Master Plan Development Permit/Coastal Development Permit No. 99-1076 for the Naval Training Center Project.

On July 17, 2001, the City Council took an action to accept 28 policy modifications to the Local Coastal Program for NTC as suggested by the California Coastal Commission. On September 11, 2001, the Coastal Commission took final action to certify these LCP amendments. In order to ensure that the 28 modifications are contained in the NTC permitting documents, it is necessary and prudent to make conforming changes to the Master Plan Development Permit/Coastal Development Permit No. 99-1076 issued by the City prior to final Coastal Commission action. Additionally, Coastal Commission staff supports the City's efforts to incorporate the 28 policy modifications to the LCP for NTC into the permitting documents for the project.

If the request for reconsideration is approved, the matter will be scheduled for a noticed public hearing at a future date.

NON-AGENDA PUBLIC COMMENT

* ITEM-102: Memorial Community Park - Playground Upgrade Grant.

(Southeastern San Diego Community Area. District-8.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2002-398)

Authorizing the application for and expenditure of State grant funds for playground upgrades at Memorial Community Park.

CITY MANAGER SUPPORTING INFORMATION:

The Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000 (Park Bond) authorized funding for the California Integrated Waste Management Board (CIWMB) to administer a grant program to upgrade park playgrounds using recycled-content materials and to assist park districts in meeting state and federal accessibility standards. The CIWMB has allocated \$2,558,000 for the Park Playground Accessibility and Recycling Grant for the fall cycle of Fiscal Year 2001-2002. Grant awards shall not exceed \$50,000 for any one public playground.

The Park and Recreation Department plans to upgrade the children's playground at Memorial

Community Park and this action authorizes a grant application to the CIWMB to fund accessibility components. The current playground surfacing is sand, so the area is not accessible for persons with disabilities. This project will install disabled accessible play equipment and pour-in-place surface made from recycled tires. This resilient surface is accessible to persons with mobility impairments.

This proposal will eliminate about 9,800 pounds (4.9 tons) of tire rubber from the state's waste stream. The new playground will meet state and federal requirements for safety and accessibility per the Americans with Disabilities Act (ADA).

The proposed upgrade will create a fun, attractive, and accessible playground for children of all abilities to enjoy.

FISCAL IMPACT:

The total cost of this playground upgrade will be \$185,000. If the grant is secured the City will receive \$50,000. The project will be matched by the City with \$35,000 from the Park and Recreation Grant Match Funding CIP-20-013.0 approved in the City of San Diego Fiscal Year 2001/2002 Budget Appropriations Ordinance O-18964 and \$100,000 from the 2000 Park Bond Per Capita funding allocation approved by City Council Resolution R-293698 dated August 15, 2000.

(R-2002-477)

Authorizing the City Manager to execute a cooperative agreement with the Metropolitan Transit Development Board (MTDB), for professional services in the area of engineering and planning (with the cost reimbursed by MTDB).

CITY MANAGER SUPPORTING INFORMATION:

Since 1986, the City of San Diego has provided a Senior Engineer to MTDB to assist with such services as designing traffic control signals for efficient transit movement, designing and locating bus stop and other transit facilities, and obtaining construction permits from the City of San Diego. The liaison positions assist MTDB in furthering transit projects and promoting coordination of development with transit. For example, the liaison engineer currently coordinates review of light rail and other major capital improvement projects with the City. He also coordinates and reviews new bus stop locations within the City. The liaison planner coordinates Transit First proposals with San Diego's City of Villages and works with developers to accommodate transit needs on their project sites.
